Ajay Kumar Garg Engineering College

B.Tech in Computer Science and Engineering

November 2022 – Present

Ghaziabad, UP

CGPA: 8.5/10

Vidya Jyoti Public School

Senior Secondary Education (Class 12th)

March 2022

Greater Noida, UP

96%

PROJECTS

Udgaar – Festival Management Application

September 2024 – October 2024

[Live Project](#) Frontend: [GitHub](#) Backend: [GitHub](#)

- Built a high-performance **MERN stack** festival management platform for **Udgaar**, handling **15,000+** registrations and coordinating with **1,000+** leaders
- Designed an engaging, animation-rich landing page to enhance branding and user experience
- Created secure registration workflow with real-time validation, deployed on AWS for high availability
- Implemented feature-rich admin dashboard for leader management, registration tracking, and analytics

Event Manager Application

January 2025 – March 2025

[Live Project](#) [GitHub Repository](#)

- Built production-grade full-stack **MERN** application with dynamic **SEO-optimized landing page**, powerful **Admin Dashboard**, and intuitive interface for youth festival management
- Integrated **secure authentication** using Google OAuth, ReCAPTCHA, and JWT, achieving **300+** successful registrations
- Deployed **real-time QR-based attendance** system and **Razorpay** for seamless online payments
- Enhanced Google search ranking through modern SEO strategies and performance optimization

Jobify – Job Portal Platform

November 2024 – December 2024

[Live Project](#) [GitHub Repository](#)

- Developed using **Next.js (React Framework)**, **MongoDB**, and **Clerk** authentication for server-side rendering and scalability
- Created intuitive platform where recruiters post jobs and candidates apply, track, and manage applications in real-time
- Optimized database queries for fast response times and high concurrency

EXPERIENCE

Software Development Engineer, ISKCON Ghaziabad (IYF Tech Team)

January 2025 – Present

- Develop and maintain official websites, web apps, and large-scale event portals, including the **Udgaar Festival** (15,000+ registrations, 1,000+ team members)
- Oversee complete product lifecycle — from architecture design and full-stack development to deployment, optimization, and security
- Manage server setups, domain configurations, and **SEO optimization** to ensure scalability and high availability
- Collaborate with stakeholders and technical teams to deliver secure, production-ready solutions

TECHNICAL SKILLS

- **Problem Solving:** Solved 300+ problems on [LeetCode](#)
- **Programming Languages:** JavaScript, Java, C++, C, Python
- **Web Technologies:** MERN Stack (MongoDB, Express.js, React.js, Node.js), Next.js, NestJS

ADDITIONAL SKILLS AND ACHIEVEMENTS

- **Leadership:** Guide and mentor 50+ youths as a Youth Facilitator
- **Public Speaking:** Deliver weekly lectures on leadership
- **Recognition:** Awarded **Best Facilitator** among 700+ participants at Viplava Festival 2024
- **Certifications:** Completed [DSA with Java Certification](#)
